Message:

Pandit Jawaharlal Nehru  
Founder President

**“We can do some extent measure our resource or most of them. But it is verify difficult to measure the biggest of these resources that we have, that psychology which makes people work for greater ends, unless we utilize this man-power and unless we can produce that temper in our people which laughs at difficulties and gets things done, sometimes in spite of facts, we cannot achieve anything really big.**

The proposal to start an organization to be called the Bharat Sevak Samaj, has this in view, it is an ambitious task and we want men and women with high ambition for little and personal thing of life but the ambition to serve great causes, forgetting on self and achieve great ends.

This is not a political organization, even though, I, a politician, command it. It is meant for every able bodied men and women, whatever his or her views might be on other topics”.
